AEI mourns the passing of Bill Niskanen, senior economist and chairman emeritus of the Cato Institute. Bill was a great friend of many at AEI, and over the years he participated in many events here. He was deeply engaged in critical policy debates, and his contributions here were always spirited. Ed Crane, chairman of the Cato Institute, described Niskanen as a “passionate leader of the growing classical liberal movement around the globe. More importantly, he was a man of unshakeable integrity.” He will be missed by all who value liberty.
