Radley Balko received some choice hate mail in response to his [HuffPost article](#) about OWSers using cell phones and social media to report on police abuse." Here's a my favorite:

Sir:

I am appalled by your lack of integrity. You quoted someone from the Cato Institute but didn't reveal that you also worked for them. You also didn't reveal that while they pretend to be conservatives, they are really George Soros peacenicks, homos, and potheads (your probably all three) who wear ties to disguise themselves.

Morale degenerate.

Radley says, "if Cato were to change its motto to *Peaceniks, Homos, and Potheads Who Wear Ties*, this alone would make it the greatest non-profit organization in the history of non-profit organizations."
