

The Left Versus Right Debate Is Brain Dead

Karl W. B. Schwarz

September 7, 2015

You have no idea how hard it is for a true conservative such as myself to read anything on the World Socialist Web Site and agree with everything they posted in an article dated June 10, 2013. It was recently reposted and I only recently saw it. This article link below is 100% on target as to what the problem is in America. It has to be fixed before there is no America except a rotting carcass as third world ruins.

<https://www.wsws.org/en/articles/2013/06/10/pers-j10.html>

As far as I am concerned the Neocons, DNI James Clapper and Congress, the State Department, CIA, NSA, Pentagon, Main Stream Media and the White House are traitors to what America is intended to be. It is no longer the shining light of freedom and liberty to any nation on this planet and there is no pretending it is otherwise. Nor is pretending that the USA is 'so exceptional' and 'so indispensable' that the world just cannot exist without it. The Roman Empire arrogantly thought the same thing and vanished into the pages of history. Nothing left but the monuments to their warmongering greatness and their stupidity.

Some committees in Congress are 'wringing their hands' over the "Iran Nuclear Deal and Iran Nuclear Weapons Program", while other committees have been fully briefed by the CIA that IRAN HAS NO NUCLEAR WEAPONS PROGRAM. Grasp the stupidity of that picture? Does Left Hand ever meet the Right Hand in Washington DC enter your mind?

There is nothing exceptional about wanton liars, manipulators and they are quite dispensable.

The CIA has already informed Congress that there is no Iran nuclear weapons program. Mossad has publicly stated that the Benyamin Netanyahu lies before the US Congress have nothing to do with Iran weapons program, for they do not have one. The US is angry that Russia intervened in both Syria and Iran to head off yet another war based on yet more stupid Washington DC lies.

As George Bush said, “the Constitution is a meaningless piece of paper”. Well... not exactly nor is the Declaration of Independence and why the Colonists kicked out the King George of England. The fundamentals of America that made it great are what many want to destroy.

The greatest enemies of America are not foreign terrorists or any foreign military threat; they are home grown terrorists and political liars and economic manipulators. They are literally enemies within the gates of America.

These idiots running for President now are for the most part “look at me, I am against Russia, Iran, Syria, etc.” and the absurdities they are uttering are sheer lunacy. Mynah birds can be taught the same phrases.

Trust me, the world would do just fine without the United States of America in its current form and management. The only shining light in the United States of America now is to illuminate the endless torrent of lies emitted by Washington DC. The MSM media refuses to be that illumination, so alternative media is trying to get the truth out.

Everything DC is telling America and the world about Ukraine is a lie. Everything DC is telling America about Malaysia Air MH-17 is a brazen and cold blooded lie. Everything DC is telling America about “Russian aggression” is a blatant lie. There was not even a bristling hair on the Russian Bear’s back until the USA started this crap in Europe, NATO and Ukraine. The justifications for sanctions against Iran, Venezuela and Russia are all premeditated lies to manipulate and gloss over what failed leadership truly is in Washington DC. Turn it all around 180 degrees so you can see the truth.

A recent Cato Institute report shows the United States at #20 on the Human Freedom Index, not at #1 as Washington DC pretends. Hong Kong, Switzerland, Finland, Denmark and many other nations are freer than the nation that pretends it is the sole ‘exceptional and indispensable’ definition of freedom. The correct English word is HYPOCRISY and MENDACITY works, too.

<http://object.cato.org/sites/cato.org/files/human-freedom-index-files/human-freedom-index-2015.pdf>

As I have stated on the air and have written, there is nothing ‘star spangled awesome’ about America anymore. It could be, but will probably never recover due to apathy of Americans and the continued negligence and malfeasance of office in Washington DC.

The sanctions against Russia are entirely based on DC lies and an agenda that is having a huge negative effect on those that played along, like European nations including those that are against the sanctions.

<http://sputniknews.com/europe/20150729/1025179478.html>

Germany, Italy, Spain, Portugal and many others have suffered huge economic hits due to USA LIES!!!

Of course, these puffed up, pontificating liars in DC think they control everything, but do not and cannot even run the USA without screwing it up (#20 on the Human Freedom Index, 36th in math, 28th in science, 24th in literacy, 46 million living in poverty, nothing to brag about folks.). They prove that point every day.

Part of the backlash against hostile US military and economic actions is now China is dumping massive amounts of US Treasury instruments. That is sort of “QE in reverse” and will hammer the US economy, and justifiably so. The China move is sucking up dollar liquidity as “US allies” have to choke down more worthless paper they do not wish to hold. The USA has run out of suckers to choke down their low-yield Treasury bonds so they can finance their empire wars based on their endless river of lies.

<http://www.zerohedge.com/news/2015-08-27/what-chinas-treasury-liquidation-means-1-trillion-qe-reverse>

And, the mechanism for the USA to pull out of the nose dive is now rapidly disappearing.

<http://www.zerohedge.com/news/2015-08-29/why-great-petrodollar-unwind-could-be-25-trillion-larger-anyone-thinks>

It is now sort of like a 747 with all four engines dead; next step is like a dart into the ground; no survivors except those elite that are not on the 747.

Between the sanctions based on lies, the idiotic economic moves and the endless lies for the war agenda, the idiotic FATCA law that has many renouncing their US citizenship, Americans need to start asking DC exactly whose side they are on for it sure as Hell is not the average American citizen.

If any nations on this planet deserve to be sanctioned it is Israel and the United States of America. That is how sick, twisted and backwards the entire message is that they feed to Americans one lie at a time and repeat, repeat and repeat again until anyone foolish enough to listen to the drivel has a numb brain.

Americans need to wake the Hell up and realize that the symbol below no longer means a damned thing to the rest of the world, except those foreigners that are so ill-informed about the USA they are as stupid as American Sheeple. I have met many in Europe and elsewhere that still think every American is a wealthy multi-millionaire and they want to go to America and be just like their ill-informed perception. OMG, what a joke that mental delusion is with 45 to 46 million living in poverty and a Middle Class that is being pushed to extinction.

Of course, it does not help when the USA lies for the war agenda and then rushes in to destroy a nation and turn it into a failed state. Nothing like creating terrorists on the fly from the Washington DC Ivory Tower of Delusion Land!!!

All over the world the USA is still pushing the “live and work in the USA” and “Green Card” yet cannot create jobs for Americans that already live there. To say DC is stuck-on-stupid is being civil and kind.

What made America great was a strong middle class and very low poverty rate. What was the driving force of America has been under siege for the past 25 to 30 years. Sadly, the Liars and, political con artists and Bad Guys are winning.

Folks, that number of people in the USA living in poverty is over half of the entire population of Germany at 86 million. There is no greatness whatsoever if so many in the USA are homeless, live in poverty and tens of millions more that are one step away from that Poverty Line designation.

Due to the political agendas, the lies, the endless chaos that is due to USA actions alone, there is nothing exceptional or indispensable about the USA anymore. What is exceptional is the preposterous amount of lies DC tells to push their false rhetoric and self-serving agendas for the Elite.

One of the biggest problems I have seen in America over the past 25 years has been the decline of the political discourse to the point of being asinine, inane, and absurd; a complete waste of a person’s time. Rather than discuss what is best for a nation and its people the rhetoric is a veil of lining just the right pockets and a war agenda that is brain dead. That so many have tuned out is not surprising to me in the least bit. The smoke and mirrors razzle-dazzle has been at the ludicrous spin-cycle level for a generation.

The political discourse in America has now reached the level of brain dead and mere Sheeple Food for ignorant, complacent and cowardly sheep. Had the abuses of Abu Ghraib Prison, the

GWOT Unjust Wars of Aggression (i.e. blatant war crimes), the illegal CIA torture program, the endless lies and human rights abuses at Gitmo and beyond happened when I was 18 to 25, my generation would have been out in the streets in the tens of millions to shout down this lunacy in Washington DC or forcibly kick them out.

Maybe you are too young to know about the clashes in the streets of America between anti-war protestors and police to get the USA out of the Vietnam War. It was yet another USA action based on nothing but lies and a military agenda, and another war the USA lost. Four unarmed students were shot dead at Kent State University on May 4, 1970 by the Ohio National Guard and many others wounded. Have you never heard the Crosby Stills Nash & Young song “Ohio” about that tragic and senseless event?

<https://www.youtube.com/watch?v=68g76j9VBvM>

The uprising was not just Kent State University in Kent Ohio. Hundreds of universities across America were shut down when the students displayed their outrage when Nixon expanded the Vietnam War and invaded Cambodia. Many of them were Vietnam veterans of yet another stupid war the morons in DC pursued.

The back side of that single was another song that hit the American consciousness and how wrong the path of Washington DC was at that time in history. “Find the Cost of Freedom” and together that single record with 2 sides soared to #14 on the charts on one week. The outrage peaked even faster due to four students being murdered by the Governor of Ohio and his National Guard.

https://www.youtube.com/watch?v=0nIXmYVE_X8

One does not find the cost of freedom buried in the ground. You find it within a people living free, happy and prosperous but the USA has not been that for a long time.

Americans not only died in Vietnam; they died on the streets of America stopping that insane, senseless war. No, American Sheeple, America did not win the Vietnam War. Nor did America win the GWOT, or in Afghanistan, Iraq, Syria, Iraq redux, Ukraine, Yemen or anywhere else since World War II. It can be argued that the USA and its allies did not win WW II since much of Europe was suddenly part of the USSR until September 1991.

That one song “Ohio” caused an uprising in America that changed the course. Where is your outrage at the millions of people the US has killed in a war that was dreamed up in DC called ‘the Global War on Terror’ 1992-1996 and it is the USA that is the liar, the aggressor and the terrorist?

Do you really think there is a “terrorist” behind every damned tree in the USA? Wake up and grow a set of balls while you are going through that awakening from the fog your brain is in. Wash the bullshit out of your eyes and ears and turn your brain on. For the love of God, have an epiphany!!!

My, how times have changed and what a cowardly nation the USA has become. NO “We are #1” chest thumping folks, nothing great about you anymore, except the level of national debt and the staggering amount of bullshit and lies Americans tolerate because it is now the Land of the Cowards. The Land of the Apathetic Meek that are too gutless to stand up against anything or any wrong. Is 3 to 4 million people murdered on the basis of a USA GWOT lie wrong to you? If no it is not, you don’t deserve to live or prosper because of the barbaric Ugly American inhumanity you represent.

Sit on your American ass while people are being wrongfully murdered in many foreign lands? Who in the Hell are you to be a such a lazy ass?

I was at Sam & Harry’s Steak House one night in 1994 after work having drinks and waiting on my table to have a great filet mignon, baked potato, creamed spinach and my favorite Australia wine, Wolf Blass Black Label.

A voice asked me if we could talk in private. When I looked up from what I was reading it was Tom Daschle, then Speaker of the US House and soon to not be Speaker due to the House and Senate going to RNC control in the 1994 elections. Come January 1995 and the swearing in of the next US Congress, I had been part of a major reduction in “job title” for Mr. Daschle.

This was the post-election transition period when next America got Newt Gingrich and The Contract with America that was really a Contract on America and all of the religious zealots were allowed into the political process. That was the False Front for PNAC and the totally bogus Global War on Terror. The post-September 11, 2001 war planning was started in DC during the period 1992 to 1996 while I was directly working with the RNC on strategic planning issues. That is exactly why I walked out and told them they were lunatics if they ever launched such a stupid idea.

They launched it due to September 11, 2001. They do not want any investigation into 9-11 because they do not want you to know why they did it. Hint: it was not Osama bin Laden operating from a cave in Afghanistan or 19 wily Arabs that defeated the most protected air space on this planet.

Both of the major parties were playing suck up and kiss ass to the Big Money on which one would better launch a made up illegal war of aggression against Islam because Israel and the special elite interests wanted it. After the USSR folded the tent in September 1991, there were some nutcases in DC that dreamed up the Next (Islam) Enemy. Get it?

The GWOT has proven to be a complete disaster for the USA, so rather than change course and do the right thing their 'Plan C' was to blame Islam and Russia at the same time now since Maidan 2014 in Kiev. Get it?

After the "Clinton Regime" got handed their ass in the November 1994 elections and the House and Senate both changed out of DNC to RNC control, I was amazed that the Democratic Speaker of the House wanted to talk to me. I was sort of a 'covert agent' for the RNC, but damn... seems there are no secrets in the Nation's Capital.

It was no secret in "RNC" Washington DC why my office was there or the outcome of the 1994 elections. For Daschle to want to talk to me was actually a display of American courage and willingness to face a political enemy and talk sense or discuss things that really do matter.

It was no secret at RNC that I am from Little Rock Arkansas and knew how to beat Clinton. Rather than sully myself running against him for governor of Arkansas, I showed RNC how to defeat him and what Clinton truly stands for that is not pro-America.

I truly wanted to hear what Tom Daschle wanted to talk about so told him to take a seat at my table and talk away. Unlike most in the RNC today, I am not afraid or reluctant to sit across the table from a Liberal and discuss things man-to-man, or man-to-woman as the case may be.

He first informed me that I was seeing the 'Real Tom'; not the DNC attack dog he had to play for the TV audience every day Congress was in session. He was truly afraid of the direction America was about to take.

Seems they all knew on the Left that my hangout was Sam & Harry's. Not even half a block away was The Palm Restaurant, a DNC hangout. I even talked to James Carville there many times after he had a few drinks and would speak the truth. It did not take me long to figure out never talk to James Carville when he is sober and pissed off at the same America I lament. When he is moderately drunk he can be intelligent, charming, reasonable and even objectively American with a slight twist of Cajun hot sauce.

Every day walking to my office there was a certain coffee shop just off Connecticut Avenue and Jefferson Place. There sat George Robert Stephanopoulos reading the morning newspapers so he could SPIN CLINTON yet again that day. He got his nickname 'Step-on-all-of-us' honestly by

being the little weasel prick he was then and still is. He was hired because he is a liberal apologist for the absurd; anything for prestige, money and to bask in Clinton's "false and empty light" as Meredith Oakley put it. My guess is Little Steppyonyou is not happy that the Hillary Clinton presidency bid is falling flat on its face. He becomes redundant, useless and time for the DNC to find a new face and voice for the absurd.

Even though my mentors were Conservative Democrat and former US House Way & Means Chairman Wilbur D. Mills and RNC Treasurer William F. "Mr. Mac" McManus, Daschle gave me quite an education in DC politics that night and how shallow the entire routine is behind the scenes.

Daschle suggested that I (and we at RNC) might have gone a little overboard on helping to take the House and Senate and I patiently listened as he explained why. Within 2 years I could see that he was right and being 100% truthful with me across the table. There was a pendulum swing in America in 1994 and since that should have never happened. The political discourse on what matters for a nation shifted to what matters for only the elite special interests and a global empire war agenda that is truly insane.

When they write the history about why America failed as a nation and collapsed as 'an empire too far', that period from 1994 forward will not be fun to read about how failed leadership, sheer USA arrogance and bullshit agendas ended in total disaster.

When you have stupid greedy, self-serving people come up with a stupid plan, the only possible outcome is stupid. That math is only hard for the America that is 36th in math globally. Hence, no success whatsoever since September 11, 2001 except kill a lot of people senselessly and then lie like the cowards they are in DC to justify their existence, their lies, and their inexcusable actions.

In all candor, we knew 100% certain the Republicans would take the House. That the landslide included the Senate surprised all of us that worked to pull it off. Once we had lit the forest fire that took the House, it turned out that voter anger across America spilled over and took out Senators, too. We had not even contemplated that happening because it was sort of 'too much to wish for'.

We talked for over an hour before he had to leave to attend to 'DNC matters'. That 1994 election outcome against the Clinton agenda had put into motion a hardline shift from USSR boogeyman to Islamic boogeyman. I did not see in 1994 what I could clearly see by June 1996. Daschle already knew what the RNC was up to, because Clinton wanted to launch it (the Global War on Terror) and was why the White House and Janet Reno were already preparing the Patriot Act.

Imagine America being temporarily saved by a blow job and nasty things with a cigar in the Oval Office. Sadly, it was not enough to change the course or save the lives that have been wasted for nothing but a DC lie.

I hope you have your brain turned on and comprehend the preceding five paragraphs. The shit-hole you are living in right now was preconceived from 1992 to 1996 as an idiot idea of empire and supremacy that the entire world now knows was a failure of a plan from the puffed-up lying morons in Washington DC.

Even Clinton was 100% behind 'suppression of dissent' and 'denial of freedom and liberty' for the path the elite in DC wanted to pursue.

We actually connected on what the problem is and why the political discourse has to change before America collapses into ruin. The collapse is well underway all across America from 2001-2008 to right now. It will soon get much worse.

It really is not a failure of leadership just on the shoulders of Obama. The USA has suffered from failed leadership from George H W Bush, through Clinton, through the Village Idiot and now Obama. It has been 24 years of downhill and nearing the edge of the cliff. Due to Washington DC actions, trust me on this... it is a long way to the rocks below.

What will you do without freedom and liberty and from one-thirds to one-half of America are living in poverty? Will that wake your lazy ass up that something is seriously amiss about the American Dream and the bullshit message from Washington DC?

Well, the discourse has not changed in 21 years and things are now reaching the level of terminally ill serious. If anything the political discourse has become much worse and the "American Taliban" Tea Party has not helped matters at all. There is a reason for the separation of church and state that completely escapes the religious zealots on the Right. First and foremost being that moral issues are not political issues and no lame-brained government on this planet has ever figured out how to legislate morality. That is not even the job of government until the religious nutcases are let into the discussion.

If you have no clue what I just wrote, check out Panel 2 of the Thomas Jefferson Memorial, Washington DC. Let the words of Thomas Jefferson sink into your numb brain cells:

<http://www.monticello.org/site/jefferson/quotations-jefferson-memorial>

The Speaker of the House even challenged me to go to a certain restaurant the next night and see for myself what a total charade DC politics is. He told me what I would see and damn, he was right and being completely truthful.

If one watched C-SPAN you would think that Senators Ted Kennedy (D-MA) and Alfonse D'Amato (R-NY) were sworn enemies. A flaming liberal from Massachusetts and a rare Republican pit bull from New York. Imagine the two of them playing cards, drinking and laughing it up after their big performances on C-SPAN that day as Liberal "D" versus Conservative "R".

"The Republican-led Congress first passed similar laws banning "partial-birth abortion" in December 1995, and again October 1997, but they were vetoed by President Bill Clinton.[14]"

During the day on C-SPAN they were in a major 'battle' on the Senate floor about Clinton's partial birth abortion and at times appeared they wanted to have a fist fight for the viewing audience. Then after work playing cards, drinking and laughing it up... at America's expense. They all have expense accounts for their House and Senate offices and they are very lavish in how they spend taxpayer dollars on themselves.

The other pairing was another Republican attack dog and a Democrat attack dog, also laughing it up, drinking, playing cards after the third-rate theater they deliver to Americans every day.

Frankly, folks, I had to order a double Jack Daniels and just sit back and watch what Tom Daschle told me my eyes would see at The Capitol Club. I had to make sure this was a nation's capital named Washington DC and not some scene from Alice in Wonderland deep in the rabbit hole. "R" and "D" playing "R" and "D" at a card game and having a grand ole time after their daily performances on C-SPAN for the Stupid American Sheeple.

The reason this trip was worthwhile is because it was one of those 'political rhetoric' battles that mean nothing except to mislead Americans on what really goes on in the National Capital. While Congress was debating this tripe the CIA was arming Muslims in the Balkans to kill Christians so Clinton could ride in as the savior of the Christians and Americans forget about the blow job and nasty cigar matter in the Oval Office. GET IT???

What I was seeing on TV was third-rate theater; outside of the camera view these 'political enemies' were as thick as thieves, card playing and drinking buddies, and gloating about their third-rate performances to entertain the Stupid American Sheeple. That was the most insufferable part of it and why the double Jack Daniels was necessary medication.

I could make your hair fall out or turn it white if I told you what I have seen in the Army Navy Club in Washington DC. Our national capital is not that; it is a cesspool of wannabee moths that fly too close to the flame and power brokers for the elite screwing you over every minute of every day.

It is a law creating sham that now serves only the elite few and is burying the rest of America into Third World status. The other laws they pass are to make sure you Sheeple cannot stand up and take back what is rightfully yours... America. These clowns in DC are not America; YOU ARE.

The Constitution is not a 'worthless piece of paper' but they are diligently trying to make it exactly worthless and the rule of law, too.

The area called Washington DC is a bunch of misfits chasing power, fame, fortune and even sex, and even future careers as lobbyists to keep plundering the public treasury while you sit obliviously on your ass at home surfing the TV channels. Many of the derelicts in Congress want the job for one reason; a pension for life even though they cannot cut it out in the real world and have failed over and over again trying to cut it.

If they cannot run a mom and pop business, how can they run America? Think on that one.

Other than a possible gathering of a hypothetical non-existent group of Bankrupts & Losers Anonymous, there is no place on Earth to find more company-crashing losers in one place than the 535 people that Americans have elected to the US House and US Senate for the past 30 to 40 years.

If Americans were to elect on the basis of performance, competence and success, most in Congress would fail to clear the hurdles and would never get a seat or pension for life. Do you have a pension for life? They do!!!! I would like to know how much just in Congressional pensions the US government pays out to these losers every year.

Maybe this will hit a brain cell and anger the Stupid American Sheeple. The Ashley Madison adultery website scandal that is now public knowledge includes these people in DC using those House, Senate and White House, Pentagon expense accounts, at your expense, to cheat on their husband or wife or play out stupid fantasies at your expense. Wrap your head around that one and see if the mood changes.

Any law the elite want they get because the compromised prostitutes in DC just roll over for it. What Americans need is not even considered, and why things are in plunge mode all across America.

Here is the problem with the current version of the Left versus Right Debate. We are all Americans, same nation, same planet and unfortunately the same sinking ship. Just look around you, America is declining in power and sooner or later it will collapse. The message from history is 100% clear that all empires fail when the people, their overburdened subjects, get fed up with the loss of freedom and liberty and the overall abuses across the board.

It has been said that the higher you are the further it is to fall. That is why character, honor and integrity really do matter in high level positions. When such individual characteristics are not present, behold Washington DC to see what asinine and failure looks like.

Current day America is nothing but abuses to the average US citizen and any non-citizen living there. Any foreigner that wants to move to the USA thinking everyone are multi-millionaires needs to have a brain scan to determine how many brain cells are working. Even the worthless MSM in the US shows occasionally what things are really like across the USA.

The Declaration of Independence of July 4, 1776 triggered a revolutionary war and created the United States of America. By my estimation, what is in current day Washington DC is at least 10,000 times worse than what Thomas Jefferson was writing about:

“We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. That whenever any form of government becomes destructive to these ends, it is the right of the people to alter or to abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.”

Absolute despotism is actually a very accurate phrase as to what Washington DC truly is. Anything for the Almighty Big Brother and to Hell with you whether you like what they do or not. Current day USA is an aberration that has numbered days left. Don't rely on the 'One Nation Under God' routine for God does not tolerate fools, liars, adulterers or murderers, or terrorists and war criminals.

There were actually three very famous families from Virginia; Washington, Jefferson and Lee. Unless one has studied American History to know the facts, it was Richard Henry Lee of Virginia that first put on the table that the Colonies should free themselves from England and a punitive despot King George. It was the eloquence of Thomas Jefferson that was the fuel for the fire. Henry "Light-Horse Harry" Lee was a Revolutionary War hero and father of Robert E. Lee, the famous general that quit the Northern Army to lead the Virginia army and later the entire Confederate Army during the Civil War.

These were all men of principle. There is not one person in DC that has principles they will not compromise for political expediency or the DC Lie of the Day. That is part of the problem and is a major one that is killing America. The Truth will always matter, but not in Washington DC.

Everything you are seeing from DC is desperation, not leadership. It is all pretense for what is apparently a willfully ignorant electorate and most are being gang raped into the poor house.

What are Americans to do? Dole out the parachutes and life jackets on the basis of the last "D" or "R" election outcome?

It is really necessary for an American's self-esteem security blanket to identify yourself on the basis of who you voted for in the last election? Don't you have something else more important about you than who you voted for in the last election? Does the "R" define you? Does the "D" define you?

Do you ever watch the pathetic performances in office of who you voted for, and then wonder why you ever pushed "R" or "D" for that incompetent moron?

I ask because after you vote for the lame-ass and he or she proves to be exactly that, why keep up the charade that you made the right choice? Too ashamed to admit you are stupid or got snookered by a lying political con artist? Too ashamed to admit you knew absolutely nothing about the person you helped to put into office with your vote? Why vote for that lame ass again? Too ashamed to admit that you made an error in judgement? Or is it that your only definition in life is "R" or "D"?

Try "I", you will find it as refreshing as a breath of fresh air or a dip in a cool stream on a hot day.

Your nation, your freedom, your liberty and even the ability for America to create jobs and compete in the real world was stolen from you... while you sat and watched or just were not paying attention to what matters. And kept pushing "R" or "D" like an idiot savant, or maybe a chimpanzee that can be taught to do exactly the same thing as the average American voter.

I moved out of the USA when it was abundantly clear that Americans were not going to even report the rape they got from their masters. They would rather sit at a coffee klatch and bitch and whine about it, talk authoritatively about nations they cannot even find on a map, and their ass being 'a little sore' rather than do something about it. Or, take solace in surfing channels while their nation is collapsing all around them.

You folks in the 50 states better wake up while you still have time. Otherwise, you will wish you had the money to live elsewhere and a nation that would even let you reside on their soil.

This will irk DC but so what? I am one American living outside of the USA that could not care less what Washington DC thinks on any subject. I have not had a US dollar of any denomination in my hands since June 2, 2006 and converted everything to Euros and Swiss francs. Please wake up!!!!!!

In a nation where the people are afraid of the government there is no freedom and liberty and eventually despotism reigns. In a nation where the government is afraid of the people freedom and liberty flourish. Jefferson and Madison were very wise to have included the Second Amendment in the Constitution of the United States. They already knew what despotism and an all-powerful, un-listening and uncaring central government looked like.

This current government in Washington DC is not essential and not even deserving of respect of Americans or foreigners. They just want you to think they are and put on a good show for Sheeple.

Just as I was ending this article another one was posted on Rense from ZeroHedge.com. Wake up folks and prepare yourself for a Third World status America. Maybe we need to change the name to "Amexiko".

<http://www.zerohedge.com/news/2015-08-27/lies-you-will-hear-economic-collapse-progresses>

Yes, they will just keep right on lying to you. They want you to think you have leaders. They suck by any definition or terminology that can be used to describe bad things. When 'suck' describes leadership, it is time to change leaders.

Frankly, if I were president there would be many elected and appointed officials under investigation and soon facing charges, and I would pardon Julian Assange and Edward Snowden and let them help cut through this bullshit once and for all.

I would order and immediate cessation of US military actions around the world and prosecute anyone aiding and abetting terrorism for their political agenda.

I would also fire the entire Joint Chiefs of Staff at the Pentagon and clean house at CIA and NSA. FBI and DOJ could do their job or leave, too. There is serious work to be done and it will take serious and competent people or America is finished.
