Undertsanding the Murdoch-Koch Alliance

The first shot against George Soros in the [War of the Oligarchs](#) was fired by foot soldier Glenn Beck of Rupert Murdoch owned FOX.

A friend reminds me that Murdoch was for some time on the board of the Koch controlled Cato Institute. A number of Murdoch's foot soldiers attended the 2009 [secret meeting](#) held by Koch Industries. Beck was there as was FOX's Michael Barone and Steven Moore, member of the editorial board of the Murdoch owned Wall Street Journal.

Koch-Murdoch versus Soros, will make the Hatfields and McCoy's look like a lawn party. Order lots of popcorn.
