

Letter: Libertarian Cato Institute puts Gov. Kitzhaber near bottom of its governors list

The latest fiscal policy report card (from the Cato Institute) for the governors of all 50 states has been released, and you can read it for yourselves at <http://tinyurl.com/m24a2sm>.

As you might imagine, with wasteful spending on Cover Oregon and so-called green energy, our Gov. Kitzhaber has joined seven other governors at the bottom of the list who have earned a score of “F” for their fiscal policies.

Kitzhaber, Gov. Jerry Brown of California, and Gov. Jay Inslee of Washington state have made a clean West Coast sweep of “F” grades. This isn’t the qualification that I want in a governor.
