You can now see [video](#) of the National Press Club [event](#) we hosted with Newt Gingrich and Jim C. Capretta, marking the first anniversary of ObamaCare. An [editorial](#) summarizing our presentation ran in *Investor's Business Daily*. Like an earlier [Wall Street Journal editorial](#) that I wrote with Gingrich, it identifies the most critical reforms needed over the next few years.

This event builds on a Capitol Hill [think tank briefing](#) in January with the Heritage Foundation, the American Enterprise Institute, the Cato Institute and the American Action Forum, to release the list of [10 elements](#) of the health reform law that most need to be repealed or replaced.
