

## Speaking Info

I'm available to speak on a variety of topics, including the drug war, problems with forensics in the criminal justice system, the Nanny State, SWAT teams and police militarization, and assorted criminal justice issues. I've also spoken on blogging and new media, libertarianism, free trade and globalization, obesity policy, alcohol policy, regulation of gambling and poker, and steroids in sports. I'm also available to speak about topics related to any articles I've written.

Unless the event is in the D.C. area, I usually ask that the sponsor pay for travel and a modest honorarium for my time.
