CATO Provides Rationale For Government Growth

On June 24th, 2009 DC says:
 Like the Repubs, they spout nice-sounding principles which they then undermine. And, of course, they are VERY pro-Fed.

U.S. Dollar: How to Predict Trends, Not React to Them 6/22/2009

What creates trends in all liquid, freely-traded markets? That depends on whom you ask. To a conventional market analyst, the answer is news stories and events -- political, economic, you name it. The Elliott Wave Principle, on the other hand, teaches that trends are shaped by the collective mood of the market participants. This quick example may help you decide who's right. [Read More](#)

Oil & Stocks: When One Rises, The Other One Falls? 6/11/2009

Crude oil is trading above \$70 again. When oil starts to make big moves, hardly a day goes by without someone saying something like "crude up -- stocks down," or vice versa. Take a look at these charts, though, before you agree with this mainstream opinion. [Read More](#)

A gold-bug at heart, Prechter's latest forecasts for gold and silver fly right in the face of even his own affinity for precious metals. Even so, he finds himself in a familiar spot: Just as he did in '79, '87 and '07, Prechter stands contrary to the herd, delivering independent forecasts forecasts virtually no one else is making. These independent insights will help you decide how to and how not to incorporate gold and silver successfully into your own investment strategy. **Download Your FREE 40-Page Gold & Silver eBook.**

Please take the time today to tell at least **one** friend about Dr. Paul, his message, why you support him, and why our country needs him now more than ever. This is a *grassroots* campaign. We are the grass and we are the roots. The other candidates may have more money, but Dr. Paul has something that no amount of money can buy: He has us. He has our trust, our belief, our support and our love. Let us not let Dr. Paul, nor our country down.
