This is just a little FYI for all of you who are so determined to tax the evil rich in this country ... the evil rich people who also happen to be small business owners, many of whom pay income taxes on their business earnings.

According to the latest Small Business Economic Trends survey conducted by the National Federation of Independent Businesses, 31 percent of respondents said the single most important problem facing small businesses is "poor sales." "Taxes" and "Government Regulations and Red Tape" came in second and third place at 22 percent and 13 percent respectively. Combining the two, the biggest problem facing small businesses according to respondents is government.

But to a lot of Americans, MORE government is the solution.

What others are saying

Yes!! MORE Government!!

Since spending \$1,000,000,000,000 - THAT WE DON'T HAVE - 'saved or created' millions of jobs and kept the nation afloat...why, then, doesn't the government just spend TEN MORE TRILLION dollars we don't have, to insure financial prosperity for generations to come? I mean, if the solution for getting out of a hole is to get a bigger shovel, then what's stopping them?
