## FREE E-BOOK FROM THE CATO INSTITUTE

BY JEREMY DAVIS AT 7:28PM

SEP 1, 2010

For a limited time, the [Cato Institute](#) is offering a free downloadable version of [Downsizing the Federal Government](#), a guide which addresses solutions to the financial woes brought on by big government.

As Cato's website explains:

*The federal government is running massive budget deficits, spending too much, and heading toward a financial crisis. Without a change of direction in Washington, average working families will be faced with huge tax increases and a lower standard of living. In Downsizing the Federal Government, Cato Institute budget expert Chris Edwards provides policymakers with solutions to the growing federal budget mess. Edwards identifies more than 100 federal programs that should be terminated, transferred to the states, or privatized in order to balance the budget and save hundreds of billions of dollars. Edwards proposes a balanced reform package of cuts to entitlements, domestic programs, and excess defense spending. He argues that these cuts would not only eliminate the deficit, but also strengthen the economy, enlarge personal freedom, and leave a positive fiscal legacy for the next generation.*

You can download the PDF version of this free e-book [here](#).
