## Morning Links

- Gene Healy offers some limited government-themed Jimmy Carter contrarianism.
- I'm honored to be named "Rebel of the Week." Does this mean I need to get some sort of tattoo?
- Speaking of tattoos, this is really too horrifying and/or hilarious to keep to myself. But be warned, it isn't remotely safe for work. If you're curious, mouse over the URL before clicking. It tells you all you need to know.
- Jailed Iranian blogger may face the death penalty.
- Conservatives go nuts over an excerpt from Bob Woodward's new book in which Obama says that "America can absorb another terrorist attack." If he did indeed say it, it's the most sensible, pro-America thing a politician has said about terrorism in recent memory.
- Other people named Sarah Palin.

Just more proof that Obama hates America! We need a REAL president that will not hesitate to tell the terrorists that we are fragile and weak, and will shatter into a million little pieces if they ever attacked us again!!!
