Libertarianism.org  
Welcome!

Recommending this brand new site is a no-brainer. Chock full of articles, videos, and both interesting and informative stuff, it's a welcome addition to the world of libertarianism.

Libertarianism.org is a resource on the theory and history of liberty, broadly construed. Libertarianism takes many forms and the blogs, essays, and videos here explore them all. None of the views expressed at Libertarianism.org should be taken to represent the position of the Cato Institute or its scholars.

David Boaz (author of *Libertarianism: A Primer* and Vice President at the CATO Institute) is a familiar face, and one who knows and explains libertarianism better than almost anybody.

Great job.

Take a couple minutes and check it out. Have fun exploring!
