I'm proud to announce the birth of a new website, libertarianism.org, a project of the Cato Institute. The site is a one-stop shop for the ideology. I've been combing through it all morning and there's really nothing quite as comprehensive in terms of scope. It spans from Charles Murray to Murray Rothbard.

I only wish this was around in 2006 because I would have spent a lot less time on message boards filtering through nutcases. Oh well.

Anyway, I put my seal of approval on it and would appreciate your take on it.
