More on [AMNG](#)

During this past Summer [AMNG](#) traded a tremendous amount of shares, upwards of 100 Mill on some days! Buyins.net also reported that a huge amount was shorted.

I don't know if these shorts were covered yet, but if they haven't keep an eye out for a short squeeze. The covering of these shares coupled with regular buying could created a situation called a "short squeeze". This is basically a huge rally.

The chart shows that [AMNG](#) has made big runs in very short periods of time. As with any low price stock, always use caution and consult with be professional before you attempt to trade it.

Since [AMNG](#) is an incubator of other companies, they have their fingers in many different industries.

Medical Marijuana prohibition costs millions of dollars a year.

It's been said that in the U.S., there are more arrests for marijuana possession each year than for all violent crimes combined.

Just imagine how many unfortunate arrests are made on people who use marijuana strictly for the relief from pain. Numerous studies have established that marijuana can help lessen pain.

Medical marijuana is now legal in 14 states and the District of Columbia and more states could follow!

Marijuana used for medicine is creating billions of dollars and this is becoming more and more recognized by state governments.

[AMNG](#)'s strategic partner AO Licensing Corp. acts as a parent trademark licensing and consulting company for independently owned and operated dispensaries throughout the US.

Until AO Licensing came along, independent dispensary owners had to invent their own "roadmap" in guiding them toward success in a brand new industry that is growing and changing very rapidly.

[AMNG](#)'s subsidiary Altitude Organic medicine is partnered with the best in Colorado!

A New York Times article June 25th, 2010 entitled, "When Cannabis Meets Capitalism" stated the Colorado Medical Marijuana patient registry is still adding 1000 names per day netting the state over \$90K per day!

You can read the article here:

[AMNG](#) announced in late August that Altitude Organic Licensing Corp., has licensed its proprietary AO brand to five retail locations - 4 in Colorado and 1 in California.

Americans spend roughly \$25 billion a year on marijuana, according to the Harvard economist Jeffrey Miron!

[AMNG](#)'s subsidiary PanPacific International, has signed a binding letter of intent to acquire Queen Entertainment Group (QEG) of Hong Kong.

Queen Entertainment Group is one of the leaders in Hong Kong event organization and is also known regionally as an exclusive artist agency whose specialties include providing talent for all forms of media, television, video, and print advertising throughout the region.

QEG has gained a stellar reputation regionally as an exclusive talent agency with clients in Macau, China, Taiwan, Japan, and Korea!

"Queen Entertainment Group brings PanPacific strong media relationships throughout Asia including valuable contacts within network television, radio broadcasting, print media (including magazines and newspapers), and the Internet," says Jack Martin, president of Amergence subsidiary, PanPacific International.

[AMNG](#) already has an 8 year old Tranzbyte division that focuses on the development and marketing of optical and solid state media enhancement technologies such as DVCD, [CDMX](#), and Flash[CDMX](#) for DVDs, CDs, and Flash Ram respectively.

DVCD is a specialized DVD enhancement environment designed and built by TranzByte.

Imagine a dvd that combines some of the best features found in dvds and audio cds! There's a wide market out there that may be interested in this - music artists, record labels, movie studios and tv studios, and concert producers!

DVCD functionality allows the consumer to play a movie or video DVD in a standard DVD player and, when finished, take that DVD disc and put it into a PC or MAC where users are able to copy the music portion of the content to a digital player like the iPod!
