

In Defense of Global Capitalism

by Don Boudreaux on January 12, 2011

in [Books](#), [Cleaned by Capitalism](#), [Complexity and Emergence](#), [Trade](#)

I'm thrilled to find one of my favorite books on trade available in so accessible an electronic format: Johan Norberg's [In Defense of Global Capitalism](#). (By the way, Ronald Bingham's suggestion – in one of his comments [here](#) – that the data unambiguously show a positive correlation between protectionism and economic growth is ludicrously mistaken – see, for example, page 82 of Johan's book.)
