

American police now “Israeli-DHS trained,” precursor to dictatorship

The door to this foreign influence in America was thrown open by the Department of Homeland Security and, in particular, Michael Chertoff, an Israeli citizen who was, in particular, most instrumental as former Director of DHS in implementing policies challenged as unconstitutional, policies the new “Israeli trained” American police are tasked with stopping opposition to.”

Slowly, every police department in the United States, at the behest of the Department of Homeland Security, is being trained by Israeli groups.

As part of this training, there is an increased move to use of military uniforms, armored vehicles, heavy weapons, illegal surveillance, lying to the people, press and courts and systematic interference in the electoral system.

They are becoming “Israeli.”

The door to this foreign influence in America was thrown open by the Department of Homeland Security and, in particular, Michael Chertoff, an Israeli citizen who was, in particular, most instrumental as former Director of DHS in implementing policies challenged as unconstitutional, policies the new “Israeli trained” American police are tasked with stopping opposition to.

“Israelization” of American police is a simple process:

- Total militarization of police, military tactics, utter disrespect for civil law, the constitution, civil liberties, freedom of speech and the unbridled growth of centralized power under unlimited corruption; government by money and organized crime.
- Systematic suppression of dissent
- Systematic use of intimidation to control the electoral process at every level of government
- Seamless coordination with military and “internationalist” groups to prepare for mass internment of sectors of the population, numbering in the millions
- Coordinated use of full military power including but not limited to bombing, strafing, heavy artillery and summary executions, the same methods Israel uses on a daily basis
- Even more control of the press, based on the Israeli model, with two “controlled” views, on pro-government and the second, “controlled opposition.”

Infiltration

It is absolutely necessary to differentiate between Israeli companies and those working tied to quasi-governmental organized crime in America. It is also necessary that citizenry, in particular Americans of Jewish background, recognize that a systematic campaign of controlled and revised history and, more seriously, orchestrated "incidents" are coordinated with groups misrepresenting themselves as defending the Jewish people.

These groups, several come to mind, are, in actuality, Israeli "psyops" groups that actually work on an active basis with terrorists. What are we saying?

90% of terrorism, worldwide, including many of the mass killing incidents, all show a pattern of involvement by intelligence organizations. Almost all "terror threats" and "staged announcements" are traced to groups tied directly to the same people who show up at our door with the "cure" to a disease they themselves create.

"While in Abuja, Nigeria, 3 weeks before the attack on the national police station, I met with Chief of Security Gordon Obua, a close friend and told him this:

"We have identified the Headquarters of the National Police as a potential target. It has an unguarded gate and parking facility and is close to the presidential palace. We predict that a car bomb will be exploded there, followed by one other bombing attack.

At these attacks, you will be approached by a security company that will offer you, not only protection by a massive bribe."

The meeting was in the presidential suite of the Transcon Hilton in Abuja, witnessed by my legal team. The attack as described happened exactly 3 weeks later and the company that came with a suitcase of cash and a promise to turn Abuja, a beautiful city into "Fortress Abuja" is among those now training American police.

The same group is also suspected in the bombing of a Christian Church in Alexandria, Egypt, on January 1, 2011, another car bomb. Similarly, recent bombings in Cameroon, Kenya and Tanzania have the same "fingerprints."

The same group "ran" the Detroit "Crotch Bomber."

The Israeli handlers who worked with Abdullah Mohamed in Yemen and walking him onto a plane to the US with a bomb, no ticket, no passport and no visa, as witnessed by two Detroit area lawyers, Kurt and Lori Haskell, also train American police.

We see this over and over, police, government and terrorists, all the same thing.

Of course, few Americans are aware that the "spokesman" for the group called "al Qaeda" is actually an American named Adam Perlman whose grandfather helped found the ADL (Anti-Defamation League)

To some, terrorism is a business, and like a tire store that leaves nails in the road nearby, some "counter-terrorism" companies have more experience in building car bombs than finding them.

Why America?

Israeli security companies, primarily made up of active Mossad and former Israeli military members, began working across Africa. Israeli expertise in wiretapping on behalf of ruling parties was what opened the door. Their expertise, as shown in Britain by the Murdoch/News of the World scandals, is excellent.

They were even able to wiretap the 3 prime ministers, members of the royal family, heads of police and national security agencies, key members of legislative bodies and a hand full of celebrities. The equipment for this costs millions, can only be brought into the country by diplomatic pouch and its use is considered espionage as it foments broad unregulated and unauthorized wiretapping, totally unaccountable.

Hundreds of such units are with America police departments, as advised by the Department of Homeland Security, to keep track of group they feel require observation, despite recent court rulings that have overturned FISA (Foreign Intelligence Surveillance Act) as unconstitutional.

Among the groups watched are veteran's organizations, the Tea Party, Christian, Muslim and Jewish religious groups, labor unions, professional organizations and members of government, police officers and members of Federal law enforcement and anti-drug organizations.

Former American military, even the crippled and maimed, now head every "terror watch list."

Corruption

The truth is, America has a long reputation for corrupt police organizations. Every few years there is, in every major city, an investigation with the police commissioner and many senior officers imprisoned.

At one point, Bernie Kerik, nominee for head of the Department of Homeland Security and Police Commissioner of the City of New York had actually served as Minister of the Interior of Iraq under the interim US government that ran that country after the 2003 invasion.

Kerik is in prison, originally charged with 16 felonies, some committed while running Iraq and facing a 142 year sentence and millions in fines. In a plea deal, Kerik is only serving 4 years. Kerik, prior to becoming police commissioner, Minister of the Interior of Iraq and nearly taking over the operation of the largest agency in the United States was New York mayor Rudy Giuliani's driver.

Every major American city and most smaller departments, and there are thousands, are being "retrained," not to fight corruption but being armed for civil war, trained to work directly with military personnel to police America in accordance with unpublished policies mistakenly announced by Army head, General Odierno, as published in his article for the Council on Foreign Relations in the May/June edition of Foreign Affairs:

"Where appropriate we will also dedicate active-duty forces, especially those with niche skills and equipment, to provide civilian officials with a robust set of reliable and rapid response options."

As for the Department of Homeland Security, spearheading the Israeli takeover of America's police, David Rittgers of the Cato Institute has noted:

"A long line of fusion center and DHS reports labeling broad swaths of the public as a threat to national security. The North Texas Fusion System labeled Muslim lobbyists as a potential threat; a DHS analyst in Wisconsin thought both pro- and anti-abortion activists were worrisome; a Pennsylvania homeland security contractor watched environmental activists, Tea Party groups, and a Second Amendment rally; the Maryland State Police put anti-death penalty and anti-war activists in a federal terrorism database; a fusion center in Missouri thought that all third-party voters and Ron Paul supporters were a threat...."

Wikipedia quotes the following on the quality of management and personnel at DHS, a national scandal in itself:

“In July 2006, the Office of Personnel Management conducted a survey of federal employees in all 36 federal agencies on job satisfaction and how they felt their respective agency was headed. DHS was last or near to last in every category including;

- 33rd on the talent management index
- 35th on the leadership and knowledge management index
- 36th on the job satisfaction index
- 36th on the results-oriented performance culture index

The low scores were attributed to major concerns about basic supervision, management and leadership within the agency. Examples from the survey reveal most concerns are about promotion and pay increase based on merit, dealing with poor performance, rewarding creativity and innovation, leadership generating high levels of motivation in the workforce, recognition for doing a good job, lack of satisfaction with various component policies and procedures and lack of information about what is going on with the organization.”

Creating the perfect police state

The visible face of the totalitarian takeover of America is candidate Mitt Romney, sworn to start a world war for Israel, his backers, Sheldon Adelson, gambling boss of Las Vegas and China, the Koch Brothers and the Israel lobby, said to control America’s congress, certainly 100% of the Republican Party.

Gasoline pricing manipulation through terrorism

Gasoline pricing in the world is run by the Koch Brothers who manage the futures market. Fuel prices are unrelated to oil costs but rather manipulated to serve political interests of two Israeli-American billionaires with extremist views.

During the past two weeks, there have been multiple “accidents” in refineries and with pipelines. These have, in fact been terror attacks, cutting refinery output in the US significantly, blocking oil pipelines from the Middle East and inside the US.

None of this, and it is terrorism, has been reported. There is only one cause and that is tied to who benefits from economic problems in an election year, this being Mitt Romney and the Likudist faction in Israel that is advocating war with Iran, not fought by Israel but by the United States, of course.

Patterns

As with the mass shootings, be they Columbine years ago, Gabby Giffords at Tucson or so many others, the anthrax attacks now tied to our own government to the DC sniper, police and federal authorities have given out false press notices, sometimes showed up at crime scenes long after normal response times or may well have been complicit.

Nearly every terrorist act that supposedly occurs in the US involves law enforcement recruiting terrorists or carefully removing key suspects who were actually police officers involved.

The Oklahoma City bombing had several suspects disappear. The Detroit airport bombing attempt had witnesses report multiple arrests but no trials.

9/11 had nearly arrested, 2 on the George Washington Bridge who set off a truck bomb but disappeared the next day, people we suspect of being tied to law enforcement or “training groups” that are, in reality terrorists.

Terrorism is law enforcement

What careful analysis indicates is that the groups that are training our police are, if not exactly the same, are closely related to groups suspected of being terrorists themselves, providing support for terrorists in Africa and the Middle East.

Should our new police cars say?

“Protect and Serve

Trained by Terrorists

Big Brother is Watching”
