New Videos Attacking Obamacare Go Viral – OpEd

By [David J. Theroux](#) - September 21, 2013

[Generation Opportunity](#) has just released two videos, one featuring a woman and one a man, attacking the looming disaster of Obamacare (Patient Protection and Affordable Care Act), which is scheduled to go into effect on October 1st. The ads feature “Creepy Uncle Sam,” performing gynecological and prostate exams on young adults. The ads encourage young people to opt out of Obamacare.

Predictably, “liberal” magazines such as [Time](#) and *The Nation* and “liberal” groups such as [ThinkProgress](#) and NARAL Pro-Choice America are [disturbed by the ads](#). For *The Nation*, the ads are dismissible because they are supported by [“a new Koch-funded front group for young people.”](#) Freedom Partners Chamber of Commerce. The fact that Obamacare is nothing but healthcare fascism is of no consequence to these “progressives,” as the Obama era has once again enabled progressives to reveal their true identity as [unapologetic and relentless authoritarians](#).

For the pivotal alternative to Obamacare, please see the Independent Institute book, [Priceless: Curing the Healthcare Crisis](#), by Senior Fellow John C. Goodman (President, NCPA).
