### THINK TANK

- Confused by auctions and offsets and "upstream" regulation? Then check out the Sightline Foundation's [Cap-and-Trade 101](#).
- Emmanuel Saez and Thomas Piketty guide you through the [evolution of top incomes](#).
- Not a think tank release, but Michael Lewis's investigation into what [what really happened at AIG](#), and thus in our financial system, is really worth a read.
- The Congressional Research Service analyzes the [role of the U.S. agricultural sector in climate change](#).
- It's not getting much attention amidst the more colorful controversies of health-care reform, but the [expansion of Medicaid](#) will arguably be the single most important policy change

## Tab Dump

- [What will health-care reform mean for abortion rights?](#)
- Will Wilkinson gives us [the libertarian take on inequality](#).
- Richard Cohen likes his medicine like he likes his, well, um, something. But socialized. [He likes his medicine socialized is what I'm trying to say](#).
- [Is Obama fighting the last war?](#)

I have no problem with earned income inequality. Just have everyone inherit the same amount so that some people don't start life with nothing (or huge debt) while others start without a need to work a day in their lives, and I'll be happy with any disparities that occur over a single lifetime. Why does a father's right to decide who gets his money when he dies trump a billion people's right not to starve?
