Barney Frank

Trust this guy to reform the financial sector? Just damn. It's like leaving your parrot alone at home with the cat while you go on vacation. This is the same one who objected to the warning Bush gave in 2005 about the bad loans being underwritten for homeowners who were sketchy with their income and other qualifications. But now he wants to regulate the bejeezus out of banks and brokerage firms. Got to give those socialists credit(no pun intended), they have learned that capitalism can make them a bundle if they exploit it the right way. I wonder if Barney Frank and Anthony Weiner(D)NY are close...they could write a bill and call the...oh, nevermind...

Sam (I am) Donaldson

After he does something about those caterpillars nesting over his eyes, he should go back and read news reports about Tiananmen Square so he will know what actually took place, then see if he can still draw a parallel. So effing typical, so off the wall. I wonder if he's read the Bill yet? So I guess using his warped logic, Police are beating and incarcerating protestors and running people down in the streets? What part of his ancient rear does he pull this alliteration out of? My God, and people wonder why the backlash against liberals in general and the media in particular. It must be hard to sit down when George Soros has his hand up your butt making your mouth move!

Barney Frank

Barney Frank has been chosen to chair the conference committee on Wall Street Reform.

Fox...hen house...you get the picture.

The first provision of the Wall Street reform: The at-best-incompetent Barney Frank and Chris Dodd, who helped us get to this point, should be barred from having any input into the bill, period.

Greece goes green

How about this...try getting an economy that doesn't require an infusion of cash from the world. Or maybe just go ahead and cut a deal with Turkey to make Greece their 51st state. I guess the 40% of Greeks not already on the government payroll will wind up with money for life, courtesy of the entire free world. Now that would put ideas in the pointed heads of Democrats here, wouldn't it? Green jobs, my a*\$!
