## Tax code whammy in health care bill: ready to 1099 McD's?

Submitted by [Oyate](#) on Sun, 05/02/2010 - 15:07  
in [Off Topic](#)

This should be fun. Cato reports tax law changes slipped into a new health care bill would require businesses to file 1099 forms on ALL BUSINESSES WITH WHICH THEY DO MORE THAN \$600 A YEAR WITH INCLUDING CORPORATIONS.

So get ready to 1099 McDonald's. The auto mechanic. The guy who changes the water in the water cooler, the landlord, the dog catcher, just have yourself a stack of 1099s with you wherever you go.

Business to business transactions of 300.00 or more have required a 1099 for many years,It appears they doubled the maximum before filing.The key here is Business to Business only.

"And for the first time, 1099s are to be sent to corporations. This is a huge new imposition on American business, costing the private economy much more than any additional tax that the IRS might collect as a result."

Buy a computer at Best Buy, or tires for the delivery truck from Sears, and you have to 1099 them, too.

to implement a VAT tax. How do they keep up with it in other countries. I smells of a forethought of VAT to me.

Please take the time today to tell at least **one** friend about Dr. Paul, his message, why you support him, and why our country needs him now more than ever. This is a *grassroots* campaign. We are the grass and we are the roots. The other candidates may have more money, but Dr. Paul has something that no amount of money can buy: He has us. He has our trust, our belief, our support and our love. Let us not let Dr. Paul, nor our country down.
