A Perfect Holiday Album for the Keynesians on Your Christmas List

[+ Comment new](#)

I'm understandably partial to [my video debunking Keynesian economics](#), and I think this [Econ 101 video from the Center for Freedom and Prosperity](#) does a great job of showing why consumer spending is a consequence of growth, not the driver.

But for entertainment value, this very funny video from EconStories.tv puts them to shame while also making important points about what causes economic growth.

Deck the Halls with Macro Follies
