5TH AMENDMENT INTERROGATION JAMES DUANE PROTECT THE INNOCENT

SUBMITTED BY STEVE SILVERMAN ON WED, 05/28/2008 - 17:57

Professor Duane from Regent Law School has a speaking style similar to Regis Philbin on methamphetamine. As a result this **compelling 27-minute lecture** flies by.

Duane cites multiple examples of how intelligent and powerful people have fallen prey to their mistaken believe that they are equipped to speak to criminal investigators. However, the most notable portions of the lecture are when he describes how easily a police interrogator's misrecollection can be used to crucify a perfectly innocent suspect who tells only the truth.
