What others are saying

Clinton missed him.....

...however, Usama could be found giving interviews to journalists throughout Clinton's presidency. I guess we should have used reporters to track him down then and we would not be having this discussion today.

No wonder people are calling the National Socialists 'the party of projection'.

Osama is still within our grasp

Use more force... just fire off every nuclear weapon in the arsenal, loading them up first with cobalt followed by automated systems to distribute every known chemical and bacteriological weapon at our disposal. Osama will be dead. Unfortunately, we won't be around to confirm that.

Second-guessing the past is actually pretty easy. First-guessing the future or the present is a bit harder.

White House Party Crashers

Of course they were able to sneak in. Secret Service folks were too busy checking the backgrounds on all those "potential domestic terrorists" there in their dress uniforms. (The rest of us call them Marines - except for Hillary Clinton, who called them "waiters")

"the Obama administration can lawfully pay ACORN "

But paying contracts to AIG, et, come with a 90% tax after the fact. I guess... since ACORN paid for Obama's presidency that the back now needs to be scratched.

Effing hypocritical demosucks.

The FERAL Government is almost.. as corrupt as it can get.

Black Friday

I try to turn everything into some kind of sexual orientation - including Friday.

Black Friday makes it that much better since there is a Frigg in there.

Friday: Old English Frigedæg (pronounced [fri.je.dæg] or [fri.je.dæj]), meaning the day of the Anglo-Saxon goddess Fríge, and is attested among the North Germanic peoples as Frigg. It is based on the Latin Dies Veneris, "Day of Venus"; compare: French Vendredi, Spanish Viernes, Romanian Vineri and Italian Venerdì. Venus was the Roman goddess of beauty, love and sex.

Black Friday

I was actually joking with a friend of mine about "Black" Friday being racist. Is it implying that blacks can only afford to buy new things at discount prices? I suggested it be called "Jewish" Friday due to the profound savings, but I guess people would be unhappy about that as well. Lighten up, America. Let's focus on the real issues at hand.

How to Fix Iran

Cut off the gasoline import to Iran and the people will overthrow (replace) the government themselves.

A lot of them would like a new government, but they are afraid and need some encouragement and help.

iran

i don't know why that the US is so worried about iran's building new enrichment plants. they've already got the bomb. according to the CIA in 1992, iran would be able to build nuclear weapons by 2000. that was 9 years ago. and the CIA wouldn't lie to us. and they get paid too much to made a mistake like that one. that's why i believe everything the say.

also, iraq is going ahead with their nuclear power ambitions and the United Arab Emirates is going nuclear too. all with the blessing of the US. i know for a fact that in the future their governments will not be toppled by pro-muslim fanatics.
