**My Mind's Made Up. I Won't Listen and Won't Let You Speak** [\[George Leef\]](#)

I think that about sums up the state of mind of the Climategate folks. Politics — specifically the quest for power and [money](#) — has badly infected science. Luckily, the rock has been turned over so everyone can see what's going on.

[University of Virginia](#) professor and Cato Institute scholar Pat Michaels comments on this nasty business in an [op-ed piece](#) published in the D.C. *Examiner*.
