Everybody has heard stories of companies and bookkeepers with two sets of books. Our Congress has put totally new meaning to the words prevarication and fraud. The House and Senate, controlled by hardcore leftist ideologues, have lost all connection with the American people.

We keep telling them WE DON'T WANT THIS..the polls keep telling them. Our visits to their offices keep telling them. Our emails, letters and phone calls keep telling them. And so far, with the exception of a few Democrats and all but one Republican, they have not listened. Or they pretend to listen, babble some garbage about Americans "WANTING" health care, and go right on with stealing our freedoms, enslaving our children and condemning us all to horribly substandard care such as KILLS THOUSANDS of people every year in the UK and Canada.

What we don't WANT is THEIR health care. We don't want their socialist mandated tyranny. It's that simple.

When time allows I listen to Mark Levin in the afternoons here. Mark is a constitutional scholar and an unabashed Patriot. If you don't have his book, "LIBERTY and TYRANNY", get it. It is simply THE blueprint for the Conservative revolution. Once again, no, I'm not being paid for the endorsement. I learn by hanging around with, and listening to, people who know more than I do. Mark was referring to a CATO Institute report by Senior Fellow Michael D. Tanner on the true cost of the health care fiasco in the Senate now. It's IMMENSE!! You can link to it on Mark's web site or Google it. But long story short, they're not just cooking the books in Washville...they are cooking, baking and barbecuing them.

We are TWELVE TRILLION Dollars in the hole right now..and the debt goes up by FOUR BILLION dollars every day! To this staggering debt, the DeMarxists want us to think the proposed Unhealthy for America bill will `ONLY' cost 849 BILLION dollars. The Heritage Foundation figured it at TWO POINT FOUR PLUS TRILLION DOLLARS. Now the CATO Institute's studies, investigating much farther into the smoke and mirrors and creative bookkeeping practices employed by Congress and their cabal of criminal cronies, puts the tab at much closer to SIX POINT FIVE TRILLION DOLLARS!!

Meanwhile, the Obama administration and the Congress continue to spend like alcoholics on a binge. Any Republican who says he wants to reach `accommodation' on this bill or `FIX' it, or any part of it, should be run out of office. And we need to tell them just that. It's time to take off the gloves and go bare knuckles on this Congress and this Administration.
