Cato, Dir. of Health Policy Studies :

ObamaCare Cost -Estimate Watch Day #157

House Democrats introduced the first complete draft of President Obama's health plan on **June 19**.

Since then, Congress has spent 157 days considering the Obama health plan without ever laying eyes on a **complete cost estimate**.

The Senate has called up its version for floor consideration without a complete cost estimate. (Shouldn't **these eight Democratic-caucusing senators** be upset about that?)

The House even passed its version — again, without a complete cost estimate.
