Dictator Obama: No more Bill of Rights- -no compromise on demands

By [Sher Zieve](#)

First and foremost, I offer my most sincere condolences to the families and loved ones mourning the loss of so many small children as well as the staff members of Newton, Connecticut's Sandy Hook School. The massacre of so many is, yet, another horrific act by, yet, another madman who slipped through the cracks of the liberalized US mental health system...a system which insanely allows even the violent mentally ill person to make the decisions on his or her own treatment — or no treatment at all.

Of course, the problem is not and never has been guns. In actual fact, virtually all of the recent mass slaughters under Obama's and other's watches have been committed in States with the strongest and most draconian gun laws.

In US States where laws permit the concealed carry of guns, these situations rarely — if ever recently — occur. Tragically, the State of Connecticut has — for all intents and purposes — already enacted gun control and just before this horrendous mass murder had tightened up its gun ownership laws. Instead, the true problem is actually isolating and treating those with already recognized and defined severe mental illness and, most especially, turning back to our once-spiritual nature and worship of the God of Abraham, Isaac and Jacob.

Gun control is meant and has been meant by every modern day dictator to control law-abiding citizens...not criminals. And this is precisely what Dictator-in-Chief Obama and his syndicate plan to do. We have warned you about Obama since before the 2008 elections. What we have warned has already come true in virtually all instances, with some of Obama's anti-liberty/anti-USA actions now being put into place in his second of who-knows-how-many terms he will serve. Obama and a willing Congress have already stripped out the Fourth Amendment (See the NDAA bill) and severely limited the First Amendment (See HR 347 "Criminalizing Protests Bill" and with Obama's order to arrest Mark Basseley Youssef for making an anti-Islam film the dictator has officially declared "blasphemy" of Islam as a crime). In other words, what is legally (under the US Constitution) required (three-fourths of US States) to ratify, Obama has done and is continuing to do on his own...unilaterally. Like it or not, folks, these actions are called "dictatorial powers" ...and Obama is using them daily.

With regards to Obama's anti-US economy (aka "anti-American") policies, Wimp-of-the-House John Boehner has given Obama virtually everything he wants in order to 'save' the USA from going over the 'fiscal cliff.' With each attempt by Boehner to beg his master to accept it, Obama waves his hand, raises his chin a bit higher and — without even bothering to even read it — dismisses his supplicant Boehner with a bored "No." Obama is determined to have the Republicans give him the unlimited powers over the economy he demands. He

will not budge.

In other words, Obama is now demanding Boehner and the other Republicans recognize that he is the first Dictator of the USA and will do as he pleases from now on. He will have his way or he will let the country go over said cliff. **Note:** This whole battle is inane, as we went over this cliff quite some time ago.

To recap, this is it, folks. Obama will have gun control or he may just foment another massacre. And he will have his dictatorship or Republicans may find multiple horses heads — or worse — in their beds. We know from the schoolyards of days past that the only way to fight a bully and stop him in his tracks is to face him down and refuse to surrender. Today, however, the "leaders" of our country and lacking any testosterone and even more importantly honor. We know that the more one acquiesces to intimidation and threats, the more those actions increase. They do not stop until they ARE stopped.

I know the Left hates facts as they [temporarily] disengage them from their mission of pushing feelings and riding on high-emotions to push through their Orwellian agendas. But, I shall — nonetheless — state them. In a CATO Institute study in February 2012, the findings strongly verified the belief that C&C States experienced less crime than States that employ severe gun control. Some of the findings from the study were: "Among the researchers' findings were 285 incidents involving concealed carry licenses, 154 instances involving defensive gun use by women, and 21 cases for minors and 201 for seniors. For specific crimes, 65 carjackings saw defensive gun usage, as did 25 rapes.

"The authors also said concealed carry policies on college campuses lead to a reduction in crime, using two Colorado schools as test cases. After the state enacted its concealed carry law in 2003, Colorado State University decided to allow students to carry concealed weapons while the University of Colorado prohibited them. The report found a 60 percent decrease in crime at Colorado State since 2004, while the University of Colorado [with strict gun laws] saw a 35 percent increase during the same time period."

The Obama syndicate is working hard to destroy every aspect of this country — our country — and with the US constitution essentially shredded his job has been made a great deal easier. BTW, you might ask your Congress person where he or she stands on all of this. Just a thought as we go over the proverbial cliff of no more economy and no more Bill of Rights. You ready to willingly accept the manacles of slavery or are we finally ready to fight?
